

Successfully managing intercultural challenges

This Summer Academy on Intercultural Experience is an intercultural learning opportunity for young adults which takes place in Karlsruhe, Germany, annually since 2010. From **July 17 to 28, 2017** it will be organized for the eighth time by InterCultur gGmbH (subsidiary of AFS Germany) and Karlsruhochschule International University. Participants can earn academic credits according to the European Credit Transfer System (ECTS).

OBJECTIVES

The Summer Academy aims at developing applied solutions for intercultural challenges in business and society. It will bring together scientists, practitioners, and students to work together on the following questions:

- What are the major themes in intercultural communication, what has been done regarding the globalization process, how has communication changed?
- How do the management and the world of business react to the intercultural challenges in a world of growing complexity?

In sum, the module will bring together perspectives of different scientific backgrounds as well as practical exercises in order to ensure multi-perspectivity in teaching and learning.

TARGET GROUP

The Summer Academy on Intercultural Experience is open to anyone aged 18–35 with a demonstrable interest in the field of intercultural communication and management. Primary target groups are undergraduate students with at least one year of academic record (by start of the academy) and young professionals with a background or interest in intercultural experiences. Participants also need communicative English skills as all courses are taught in English.
